

【 Model: FWK2521 】

General Info

The advantages are as followings:

1. According to the characteristic of LED heat dissipation, the mechanical design and thermal principle are used to carry out to structural design of luminaires, combined with the material of high-thermal conductivity of high-purity aluminum alloy and the special processing technology , the effect of heat conduction, heat convection and heat radiation has been improved significantly, so that make “Wu Kong ” Square series luminaires to achieve much more smaller, less weight, high light efficiency , energy saving, environmental protection and low carbon innovative products.

2. With super power LED, accurately control the scattered light, so that the LED light efficiency is much more higher, the center light intensity is much more stronger , Using a 3° angle narrow beam lens, which provides a perfect solution for long-distance projection lighting.

3. Integrated 10 ° shielding angle into the special design of luminaire.

Control: Standard DMX512 (1990) protocol compatible.

Application: Suitable for landscape lighting of square, outdoor landscape, building facade, facade lighting of individual building and historical building, landscape lighting of green plant etc.

Technical parameter

Model	FWK2521
LED lifespan	50,000 hours
LED quantity	12 PCS
LED color(single color)	3000K/4000K/5000K
Beam Angle(FWHM)	3°
Shielding Angle	10°
Housing	Die-cast aluminum/aluminum alloy housing, dark gray powder paint with high corrosion resistance
Glass material	6mm thickness toughened ultra-white glass
LED driver	2600mA constant current driver
Power input	100 ~ 240VAC \pm 10%,50/60Hz
Power consumption	110W
Ingress protection	IP66
Power cable	3*1.0mm ² rubber cable(High voltage)
Signal cable	CAT5-SFTP-4P(Controllable)
Control	DMX512(1990)
Classification	I
Ambient operating temperature	-20°C~+55 °C(Ta+10°C)
Anti-static	IEC61000-4(Level 4)
Power Factor(PF)	≥ 0.9
Inrush current(Max)	60A
Net weight	5.5KG

Dimension (mm)

Accessories Optional

Outer light shield Honeycomb anti-glare net Deep cylinder anti-glare shield
